

## DOCK SYSTEMS

RowAmerica dock systems are designed with heavy-duty aluminum framing for simple installation and easy access to the frame and floats for adjustments.

The decking is comprised of replacable 2'x3' non-skid, UV-resistant polypropylene tiles that come in various colors.

### Benefits for Clubs

- Landing stages meeting FISA regulations
- Maintenance free with proven longevity
- Modular system with numerous options
- Non-slip decking suitable for water sports
- Lightweight moveable modules

### Benefits for Users

- Appropriate freeboard clearance for shells
- Easy mooring without projecting parts
- Gentle on fragile boats and equipment
- Easy to get into and out of the water
